

# GREENPAGES

*"new  
growth &  
curiosity"*

## MESSAGE FROM THE ACTING PRINCIPAL

Welcome to the final term of the school year! All around we are beginning to see the signs of new growth, fresh starts, green leaves and all the flora and fauna bursting back into life. Likewise, in our classrooms we are seeing students grow, shine, and continue to exhibit a deep curiosity about the world around them.

This term sees the full rollout of our social-emotional curriculum with Open Parachute, an array of trips, gardening and outdoor time that supports the development of students' responsible stewardship of our campus and beyond. Later this term we begin our final theme: Wings 7 Fangs, a theme all about bats, bugs, pollinators and all the creepy crawlies that support our ecosystem.

We have our key community event coming up on May 5 from 2-7 pm. This Evergreen Forest Fun Fair welcomes our whole community for an afternoon of fun, connection, play and joy. Many community families are hard at work organising an incredible day, and I can't wait to celebrate with you all!

In June we say goodbye to our graduating students. While this is a stepping stone for them into high school, it is a moment for our school community to re-live, re-love and remember them and all that they have brought to our school. Each student brings a strong sense of self to the group, and we know in our hearts that they will continue to let that light shine through their learning and lives throughout high school.

Finally, I wanted to share the work our community, board, administration and teachers have been engaging with: re-envisioning the school's vision and values. After extensive work by the board, the faculty took up the task of answering: How do we bring the vision and values to life in the classroom?

This workshop with teacher was passionate, creative, meaningful and dedicated. Teachers aligned each value to school activities, strategies, events, and curriculum to deeply embed the vision and values into the students educational experience.
